Software Engineer L1 @ Crest Infosystems | Developing AI Solutions
Dhoraji, Gujarat, India

Summary

Currently pursuing a degree at Charotar University of Science and Technology, I work as a Software Engineer L1 at Crest Infosystems Pvt. Ltd., where I contribute to innovative projects leveraging my expertise in Artificial Intelligence, Deep Learning, and Data Science. My academic foundation in computer science enhances my technical approach, while my certifications in cloud development and Google Workspace Administration reinforce my technical proficiency.

As Training and Placement Coordinator for the Department of CSE, I collaborate with faculty, students, and industry professionals to organize recruitment drives and develop training programs tailored to the AI and ML landscape. My work fosters skill development and career readiness, aligning with industry needs. I am committed to contributing to team success by combining technical acumen with a focus on collaboration and continuous learning.

Experience

Crest Infosystems Pvt. Ltd.
Software Engineer L1
July 2025 - Present (5 months)
Surat, Gujarat, India

CAREER DEVELOPMENT AND PLACEMENT CELL , CHARUSAT
Training and placement coordinator
May 2025 - Present (7 months)
Anand, Gujarat, India

As the Training and Placement Coordinator for the Department of CSE, I facilitate industry connections, organize recruitment drives, and coordinate training programs to enhance student's employability. I work closely with companies, faculty, and students to ensure effective placement support, career guidance, and skill development aligned with the evolving AI and ML landscape.
